

My Reading Bookshelf

Colour one spine for each finished book. Add your titles by hand.

HOW TO USE

Write one title on each blank spine, then colour it when you finish.

The image shows a reading bookshelf template. It consists of three horizontal rows of book spines. Each row contains four identical rectangular boxes representing book spines. Each box has two vertical lines inside, one on the left and one on the right, defining a central area for a title. The rows are separated by horizontal lines, and the entire set is bounded by a horizontal line at the bottom.
